

**Central Coast**  
**Marine Plan Implementation Advisory Committee (MPIAC)**

**MEETING SUMMARY**

**December 11, 2017 Conference Call**

---

**Objectives:**

1. Gain an understanding of MaPP work to date in 2017-18
2. Explore upcoming opportunities for stakeholder engagement
3. Enhance understanding of priorities for MaPP work in 2018-2019 and receive stakeholder feedback on gaps, opportunities for collaboration in the priorities

**Attendance:**

**MPIAC Members and Alternates:**

Jenn Burt – *Marine Academic, Alternate*  
Lauren Eckert – *Youth, Member*  
Russ Markel – *Commercial Tourism, Member*  
Jim McIsaac – *Commercial Fishing, Member*  
Linda Nowlan – *Marine Conservation, Alternate*

Paul Nuttall – *Coastal Forestry, Member*  
Christina Mardell – *Coastal Forestry, Alternate*  
Richard Opala – *Finfish Aquaculture, Member*

**MaPP:**

Sally Cargill – *MFLNRORD (Technical Team Co-Chair)*  
Gord McGee – *CCIRA (Technical Team Co-Chair)*  
Kelly Wozniak – *MaPP Central Coast*

**Observers:**

Megan Humchitt – *Pacific Wild*

**Not in attendance**

Nick Heath – *Public Recreation, Member*  
Sid Keay – *Recreational Fishery Service, Member*  
Emilie Piry – *Recreational Fishery Service Providers, Alternate*  
Paul Manson – *Renewable Energy, Member*

Kim Olsen – *Commercial Fisheries, Alternate*  
Krista Roessingh – *Marine Conservation, Member*  
Todd Russell – *Shellfish Aquaculture, Member*  
Anne Salomon – *Marine Academic, Member*

**Welcome and Opening Comments**

- Sally welcomed the group.
- There are four new MPIAC members and alternates: Paul Nuttall (member) and Christina Mardell (alternate) will be representing coastal forestry; Russ Markel (member) will be representing Commercial Tourism; and Lauren Eckert (member) will be representing youth, which is a new sector added in response to MPIAC advice.
- MPIAC members and alternates introduced themselves.

## Regional Action Framework Implementation

- Kelly gave a presentation that reviewed key progress on the 2017-18 Regional Action Framework work plan.
- Implementation activities related to governance and collaboration, climate change, ecosystem-based management (EBM) indicator monitoring, data management, cumulative effects, marine pollution and marine zoning were discussed.

### Actions:

- **Kelly** to upload Cumulative Effects Framework video to dropbox, and to look into whether MaPP Cumulative Effects Framework report is ready for distribution.

## Central Coast Marine Plan Implementation

- Sally gave a presentation that described the work planning process, reviewed key progress on the 2017-18 Central Coast Marine Plan work plan and highlighted upcoming work activities for the remainder of 2017-18 and draft priorities for 2018-19.
- Implementation activities related to collaboration and governance; marine zoning; stewardship, monitoring and enforcement; sustainable economic development and healthy communities; and climate change were discussed.
- Detailed discussion occurred on the Protection Management Zone (PMZ) management planning process and the relationship between the Marine Protected Area (MPA) Network planning process and MaPP.
- MPIAC members and alternates were asked to think about their areas of interest related to upcoming work activities, related initiatives they are working on, perceived gaps in draft year 4 work plan priorities described in Sally's presentation, and resources they can potentially bring to implementation activities.
- The draft year 4 work plan will be circulated to the MPIAC in advance of the next in-person meeting.

### Actions:

- **MPIAC members and alternates** to provide feedback (by Jan. 9) on their areas of interest related to upcoming work activities, related initiatives they are working on, perceived gaps in draft year 4 work plan priorities described in Sally's presentation, and resources they can potentially bring to implementation activities.
- **Gord** to develop document that summarizes integration between MaPP and the MPA Network planning process.

## MPIAC advice

- Gord gave a presentation that summarized MPIAC advice on EBM indicators to date and described some of the next steps on EBM indicator work.

## Closing

- Gord and Sally thanked everyone for attending.
- An in-person meeting will likely be held in early March.
